

## radKIDS learn:

1. No one has the right to hurt me!
2. I don't have the right to hurt anyone else unless I need to save myself from danger!
3. It's not my fault if someone tricks me or hurts me!

The radKIDS Program is providing children with hope, options, and practical skills to RECOGNIZE, AVOID and ESCAPE violence and abuse.

5 days - 2 hr. each day

**Resisting**  
**Aggression**  
**Defensively**

### The radKIDS Objective:

"To provide educational opportunities for children and parents, concerning awareness and self defense strategies, instilling confidence and reducing the possibility of adverse physical control and/or harm."

radKIDS Safety Academy

# WHAT?

radKIDS is the leading educator in realistic and empowering personal safety education for both children and parents. A "radKID" is a cool kid who won't let anyone hurt them.

"A Day on the Job and a Lifetime of Opportunity"

Our mission is to educate children with the tools, knowledge and power to recognize and avoid danger as well as to resist and protect themselves from physical abuse.

The radKIDS program is based on the foundation of a structured educational curriculum that includes realistic physical skills to escape attack or abduction. The martial arts programs that most children are involved in today are typically competition-based, and are usually centered around either sport or combat arts. radKIDS is not a sport, and specifically teaches children how \*not\* to fight. radKIDS provides the children in our world today with realistic skills to recognize, avoid, resist and, when necessary, escape physical violence and/or harm.

radKIDS is a comprehensive, foundational safety education program for children aged 5-7 and 8-11. **Return and practice free until 11th birthday!**

# WHY?

radKIDS believes that the best way we can protect our children is to empower our children with information and resources they need to immediately recognize danger and respond effectively in protecting their safety. This does two vitally important things. It eliminates the fear, confusion and panic that is inherent in dangerous situations and replaces that fear with confidence, skills and self-esteem. The key is giving them the power!

## PARENT INVOLVEMENT

Every parent whose child participates in a radKIDS program receives a copy of our Parent's Manual. The Parent's Manual includes all the information presented in the program and is written for parents and children to read together -- To review, learn, and share. All parents are welcome, and all are encouraged to actively participate in the Program with their child, creating a true Safety Education Partnership.

radKIDS focuses on 7 core areas:

- \* Home Safety
- \* School Safety
- \* Out-and-About Safety
- \* Vehicle Safety
- \* Stranger Tricks (including Physical Defense against Abduction)
- \* Personal Safety (including Good, Bad, and Uncomfortable Touch).
- \* Self-Realization of Personal Power

radKIDS was developed by a group of concerned parents, educators, law enforcement professionals, and self-defense experts to comprehensively address the myriad safety issues that concern our children. Its curriculum encompasses a wide range of safety topics, all designed to specifically address the safety concerns of parents and children, empowering children to make educated decisions to recognize, avoid, and escape hazardous or abusive situations.
